veo 3.1

Google Veo 3.1

- Google uses AI software to create video reels
- Use real people while generating video scenarios
- A person picture is required and AI will manipulate the scenarios
- A production team is not needed

REAL

VEO 3

All you need is a person or an animal photo

The photo can be generated into a scenario

Before

After

Advantages for using Google AI

- Can create video scenes with ease
- Professional looking content
- Do not need to hire a production team

Disdvantages for using Google AI

- Very costly
- Only a limited amount of content per day
